## Welcome Letter

Dear friends and colleagues

Happy new year!

It is our great pleasure to welcome you to the official website of the 5th World Congress of Dermoscopy, which will be held in Thessaloniki, Greece from 14 to 16 June 2018.

In close collaboration with the International Dermoscopy Society, we are putting our best efforts to ensure that the 5th World Congress of Dermoscopy will be a global scientific celebration, bringing together all passionate dermoscopists around the globe, from inspiring teachers and experienced clinicians to young researchers and residents.

Judging from the registrations done during the very early and early phase, the event is expected to host the largest number of participants in the history of the World Congress of Dermoscopy. The on-line registration will be open until the 5th of June 2018, but it would be better to book your seats as soon as possible.

Our website, will be fully active during all the time period until June 2018, so you can keep yourself updated on latest news about the Congress. You can also find information about the congress on the Facebook and twitter accounts of the International Dermoscopy Society.

In the land where the history of the modern science began, we invite you to join a journey to the future of diagnosis in Dermatology.

Looking forward to meeting you in Thessaloniki!

January 2018
